Tasty treats

In the forest live all kinds of animals.
**Squirrel** is sitting on a big branch.
He likes nuts best, just like **Boar**.
Bird likes berries better, and **Caterpillar** prefers
to eat leaves. **Deer** curiously sniffs around.
Rabbit is hiding so that the other animals
can't see him. *Can you find Rabbit?*

Boar has a big snout.
He uses it to look for food.
Can you see if he finds something tasty?

Deer eats leaves from a bush.
He doesn't have to bend down for the top leaves.
Where's **Rabbit** now?
