The illustration depicts a peaceful underwater environment. A large, grey, rounded rock sits on a sandy seabed. A red crab with large, white-rimmed eyes is peeking out from behind the right side of the rock. The rock is adorned with various sea life: a yellow starfish, a green wavy seaweed-like plant, a small orange coral, and a white, fan-shaped shell. To the left of the rock, there's a large, teal, branching coral structure. To the right, a smaller blue branching coral is visible. In the bottom left corner, a teal pool of water with small white ripples is shown. At the bottom center, a small white snail with a smiling face is crawling. The background is a light yellow, dotted with small brown dots, suggesting a sandy bottom. The overall style is simple and colorful, typical of children's educational materials.
