ACKNOWLEDGEMENTS

This volume comprises a selection of papers presented at the 15th International Research Seminar organised by the Foundation for International Studies of Social Security, which was held in Sigtuna, Sweden in June 2008. I am grateful to the contributors for agreeing to revise their papers for inclusion in the book and for their patience in waiting for it to be published. I would also like to thank Teena Stabler for her help with the preparation of the manuscript.
