I have blue eyes m short purple hair cut in bob and a fringe that covers all of my forehead.

My body is saved as 17 years old. We are living in dimension far away from time and space but luckily, we have a calendar like in human dimension 366 or 365 days. I have 2 sisters Kome Rize That is middle sister and the oldest sister Rizemi. I am the youngest of all tree.

2nd of March

Hi there I'm Rize Kome. Oh, nice to meet you in our journal. U can call me Rice, Ricey Riz etc. I have also blue eyes and purple hair but mine is light purple. It's very long so I do this in pony tail. My body is saved as 18 years old. My hobby is reading horrors thrillers action books and sometimes also adventure. My favorite color is pink.

Good morning reader I am Rizemi, I am 20-year-old I have blond hair, green eyes my fringe is brushed to the right side. My hair is very long it reaches my tights. And endings of my hair are very curly. I love to do sometimes red highlights to it. And I wear very often red ribbon in hair.

I wish I could dye my hair purple like my sisters but my mother doesn't agree to do it.

I am active person. I like challenges so well mentally as physically, so I sport every day and whenever I can I read and solve many problems and mysteries.

I love red color, I love birthdays, I love my future boyfriend Dami (now we are still on BFF zone). I love ever the word love. But I dislike my 'Rice' after name so everyone just calls me Rizemi.

4<sup>th</sup> of March

(Rizemi's note)

Hi there, today I had to meet the other exchange students in our Cherry Blooms Academy (CBA in shorting), but on the way I became stung by vespas so I am returning now home. Dami is on the way he will care for me today because he has nothing planned in his schedule for today. I'm so lucky he is free today.

Today I took rest and had funny talks with Dami.

7<sup>th</sup> of March

(Koori's note)

Oh my Gosh!

Rizemi became stung by vespas! Since I heard it yesterday, I took free from my work to see if she is ok. It is weekend anyway. I am in rush now in train to see her back. We are soulmates of the lifetimes; nothing can make us apart. During the break I'll introduce myself. I have short pink hair in bob with fringe that covers all my forehead. My name is Koori Uchuu, Uchuu means space in Japanese. I have blue eyes, Scorpio rising sign and my birthday is on 25 of October. (Hmm I think it was enough for this short introduction my train has almost arrived to the station.)

See you

Btw. I am a female and I'm 16-year-old.

9<sup>th</sup> of March

(Koori's note)

I saw that it's only 100 days to the academy's proclamation, so we went to do small picnic to celebrate this and to cheer up. I've sent Rizemi many of my fan-made songs on that day. We are happy she recovered well. We took also nice pictures of our class. The mysterious fact is that class is different each year so no one can remember all of the faces.

14th of March

(Nagato's note)

Today we have the pi day. As nice act of generosity I created with Rara nice big pies in pi shape. We gave announcement that in the sport hall all classes are invited for yummy pies we made. We also added free soya milk, shakes and juices to the menu because we saw that the classes are in total only 30 people. To our surprise all pupils has come and loved our pies. We've put also nice disco music. The next surprise to us was that Jeb Thomas Pina ate everything what was left after our first free party.

-He is such a glutton. Said Rara

It was sweet disco school afternoon.

Bye

15th of March

(Rizemi's note)

Today was nice time to do shopping and grocery. I went with Dami to take a walk then we repeated something about psychology for school. It was rainy day so we had become wet and we musted to dry ourselves after the rain. He said that after all this wasn't so bad. We've put music on and after studying we ate yummy Asian meals. Itadakimasu. Bon Appetit.

16th of March

(Mamiki's note)

Hello there! It is very wealthy Rizemi's best friend. We are in different places, but when I can I visit her to support her because support is the key to success in everything. We know each other for so long almost if it was the eternity. When I'm sad she supports me too. Today I took het and Damien in Ferrari and we had nice

trip around libraries in the five town. Then I just went back to my daily work but I appreciated out trip a lot.

17<sup>th</sup> of March

Today is saint Patrick Day so I am wearing green dress with two four leaves clover. Haru said he will put the fireworks on this day so today I, Rize and Nagato made make up and cleaned out faces very well. We also dressed well in lucky clover themes. At the end of the day Haru did it for real the fireworks exploded on night sky; they were in all color of rainbow. Haru invited everyone to see it but not everyone from our school has come. There was also firework that looked like real St. Patrick and many that looked like clovers. The last firework was in shape of a text that formed a 'GOOD LUCK' 'sentence. It was such a pretty performance filled with good. The songs that were able to here were for example 'How Much Is the Fish' 'by Scooter or many Irish traditional folklore music. Some of this music were remixed to better effect. I thought to myself" This firework night do it a-again <3".

18<sup>th</sup> of March

(Rize's note)

We went from the city by bus to out 5 town, where our academy stands. We saw that our neighbor who lives on lake in the ship, at exact moment when Rizemi, I and Nagato wanted to go on we saw it... The ship was sinking OMG! I took phone and immediately took picture of the event later I posted it on our school's blog. The neighbor must to change home since this happened. She has moved to another city and no one saw her in our town again.

19<sup>th</sup> of March

(Akemi's note)

Today is my dad's birthday. Mr. Hotaru and my mother are both born on 19<sup>th</sup> of the month. Nana Hotaru is born in September, so this was for me nice celebration. I gave my dad Egyptian birthday card because everyone knows that Akemi Hotaru loves Egyptian culture and Egypt at all. <3

20<sup>th</sup> of March

(Dami's note)

Hello,

Today is last day of the winter. I invited Rizemi and Koori to make cute snowman. I had black jacket Rizemi had the Red one and Koori violet one. We had also warm gloves and scarfs. And we took pictures in mountains because in town snow had melted already. This was nice last day of winter. We loved the positive smile on snowman's face.

21<sup>st</sup> of March

(Miko's note)

Today is the first day of spring. I saw that the trees are already blooming in our town. This year it begun very quickly. It is my first note so I'll introduce myself. I'm 20 years old. I have Virgo rising sign. I have short green hair cut in bob. My eyes are brown. My birthday is on October 17. I love spring the most of all seasons possible. The reason why I love spring the most is the fact that it is so alive, warm, and I always can relax during spring time.

See u next time.

22<sup>nd</sup> of March

(Nagato's note)

Today is Niki's birthday this is why I climbed the mountains to give him a nice gift. It's a nice platypus. He was nicely surprised and thanked me for his new pet. Later he offered me a nice cup of tea. At the same day Damien Koori and Rizemi were chilling out under nice blooming apple tree. Beneath the mountains in the town area is always warmer. They saw also nice double rainbow. This was unpredictable weather in the 5 town today but good enough to take break outside. After I finished my tea, Niki has taken his platypus pet outside to wave me for goodbye. I waved them back. Then went back home. At the way home I saw Dami Koori and Rizemi they smiled at me. I smiled back. Then at home I thought even if Keniki or Niki had amnesia he didn't forget how to be kind to us.

23<sup>rd</sup> of March

(Rizemi's note)

Today I went to gym. I was running n the treadmill with my two body guards. They were two alive bears. One was pink and one was light-blue. We are living in a place where various times and spaces can coexist so no one here will be surprised when they see bear who can speak human language. After the running period I ate a lot to gain energy. Then we went on a treadmill again. This was nice sporty day. To my surprise Damien was outside the Gym waiting for me and he offered me going to home together. And gave nice cake as gift. I was so nice surprised and happy. We had nice evening with cake. Sport meal sport meal .it was good day and now we can both chill. I laughed. I love the red velvet cake he had given me. He liked it too.

Ciao.

24<sup>th</sup> of March

(Rizemi's note)

Since I knew all the class members, I decided to use my magical hourglass to see our friend's future. I took Damien Rose with me because he told me he is not scared of magical travels at all. I told him the spell. " Oh, hourglass this is what I want you to tell, show me future of this person no matter of it is heaven or hell. "

Then we thought about the first person. In the same moment magical hourglass, teleported us two successfully. The person who was first on the list of B1 was Santo Satoshi. He was in hell in flames, but he seemed to be happy even in eternal damnation as if no big deal happened. The next person was Shou Banana he went to sunny Island filled with joy. He had everyday fresh bananas and coconut juice his future was happy. Next one was Fan 74. He moved to Nevada state in USA. He married pretty blue haired woman, and had 4 children. Tree of them were his daughter and he had only one son Dave. Happy family life and many entertainments in Las Vegas must be happy future we both thought.

Next one was Asahina Emiri. We saw her in darkness still young and we wondered if she will reach her adulthood. She was seen with Mirai at various matsuris dressed in kimonos enjoying festivals to the fullest. There was no adult version of them at all. Because we had limited time we moved to see other people. We went to Nono and

Nene's future. We've seen them young; they live in an apartment. They enjoyed phone, social life, festival, laughter and they live now in Portugal's capital city Lisbon.

They enjoy song by Michel Teló – "Ai Se Eu Te Pego". Despite this all joy they hadn't no adult version of them.

Then we saw Mori Kaya. She became usual office worker. She wanted also to travel. The Outside Japan trips is the thing she organized occasionally. She also worked in charity for environment because she loves green color so much. Next on the list was Jacob Rabbit. He ended up in economy field. He became banker. He loved to sponsor original and artistic people and says always that love is stronger than hate. Then we saw Miyage Rin as granny in good health. She loves to travel by trains and to sing karaoke her entire life.

Kanae Hitoru was next. His life was chaos. He was angry cause he never knew what to expect in his chaotic life. The only way to cope with stress was caking comixes and sometimes also coloring the color books helped him a lot.

The next one was Rara Shirohara. We saw her young in our little town. The 5 town was very shiny but despite the optimistic view there was not adult version of her.

But we had to move on.

Next one was Mari Tanaka. She loves hamsters so much that she became a veterinarian. She helps animals with love and lives very peacefully life. Tora Kato was very proud and confident girl but what we saw was scary. She was sitting in wheelchair. Both of her legs were in cast. We wondered what the hell happened to her.

We had to go back to our present soon so there was only one person left. Niki because he had amnesia, he didn't recall anything from his past. He lived further in his igloo.

He loves his igloo so much that he moved in his future to Iceland with his platypus. And he seemed to live in igloo forever.

Then we turned the hourglass and said the spell." No matter how the future will turn, It's the time to return."

Then it was exactly 23:50 at the clock, 10 minutes before midnight. So, we reached our comeback on time. To our surprise the future of our class members was so different from each other that we couldn't believe it. We wondered if we could do

something for these people. But then decided to do nothing at all because all cause had its effect and we don't want that they end up worse than we saw. This was very spiritual day to us.

25<sup>th</sup> of March

(Rizemi's note)

Today we will do shopping in Galleria to relax after our yesterday's discovery. Close to 5 town is city area. Damien was so nice he took me to the backseat of his bike. After while we arrived to the mall. We were first. Then we saw the message that Rize Kome and Nagato Kome will join us for shopping and that they are on the way. They also added that after all they are going to eat their breakfast first. I'll tell u maybe now the color of our bikes now. Dami's bike is red. Mine is yellow but sometimes we switch our bikes we are BFFs after all. Nagato's bike is white. Rize's is dark pink decorated with cherry blooms flowers. Koori's bike is purple. Bill's is orange. After while they all came. Magically I thought it will be only our two sisters but all orange BFFs of mine arrived. We made good big shopping. I bought for example good red-yellow colored make up. This was day full with pleasure. We put our items into bike's back. And went all back to our home. This day was full with pleasure and fun. Ciao.

26<sup>th</sup> march

(Akemi's note)

Today our A1 class had very important presentation but we must to take public bus. In the bus we saw the clown then we were very ashamed cause the clown had been captured in our official photos because of luck of time we used this one. We've put it in our class presentation. It was succeeded no one seemed to care about this ridiculous clown in our photo. We passed out first class presentation. We got 10/15. The fear was for nothing and of course our office clothes looked very pretty.

27<sup>th</sup> of March

(Nagato's note)

After school we went to cinema with all A1 class members. We chose "The Mummy" for movie all for our Akemi who loves Egyptian culture so much. We asked of she can see this movie with her parents' agreement cause Akemi is only 13-year-old. Her parents gave an agreement to see The Mummy with us. Akemi said she is ready for

the show. We all loved the cinema evening. We ate popcorn so much that our tummies were filled to the fullest. It was such a joyful memory we made together.

28<sup>th</sup> of March

(Jeb's note)

I was bored, so I invited Damien and Rizemi to come with me to the Stihl shop. I must to buy myself new chainsaw cause the old one doesn't work anymore. I bough myself new orange Stihl one. It was nice to see them again. We had fun and nice small talks.

29<sup>th</sup> of March

(Koori's note)

I organized Saturday chill out. Rizemi seemed to be bit overworked. We've put old hits and relaxed full day together. Cause I am like her loyal shadow. Full day with music is normal to us. We can listen to it every genre. Weekend is to relax anyway enjoy your Saturday too reader.

30<sup>th</sup> of March

(Koori's note)

It is almost easter. I prepared eggs. I listened to " When We Were Young (The Logical Song)" the Song by David Guetta and Kim Petras. I am self-tired of this endless yearly feast preparations. If I could be reborn, I would just relax for eternity on a sunny island with Rizemi and Damien. They are like brother and sister to me. My own siblings' treasures in my heart. I wish I could just bath in sea now. Anyway, I prepared all eggs for tomorrow.

31<sup>st</sup> of March

(Bill's note)

This easter again yummy yummy eggs are waiting to us. I know Koori's overworked and made only eggs yesterday. Rizemi just painted them and Damien just helped to clean up like each year. I decided to invite them all in three to my garden. They came to me and had full friendly garden easter party. I introduced them friendly alive egg with human baby face that could speak human language. Her name was Chichi. She is also able to fly and is more female then masculine. After this food easter party I cleaned up. For me this was good angelic day.

# PAST: APRIL

1<sup>st</sup> of April

(Damien's note)

Rinka had come to our room she had bottle of water in her hand. She went closer to us. She made us wet with water of her bottle. She smiles we laughed with her. She made later us breakfast too. It was scrambled eggs and bacon and a warm tea. We loved this sunny morning in Bill's Garden. There are many flowers many sunflowers. After breakfast we were then sitting on bench, with Rinka and relaxed in 3 on this sweet April fool's day.

2<sup>nd</sup> of April

(Rizemi's note)

-Hey Dami?

-Yes?

-Are you ready to see our class future, I mean A1?

-Yes, I am. It is 6,30 a.m. Do u think we will have time enough to see all members of our class?

-It must to be before midnight when we come back, so I think I will have enough of time to see all those buddies with u''

-Then ok. We can come back before 3<sup>rd</sup> of April for sure.

-Let's see our class from number 15<sup>th</sup> to 1<sup>st</sup> one.

Then we took our hourglass again and first person we saw was Hotaru Akemi, we saw Akemi in almost adult mode. She was in place that looks like yellow abyss then it became blue abyss with one big clock that stopped at midnight.

Then we saw our favorite Filip buddy. He was in library happy in our 5 town. But still without adult version.

Ken Kimura moved to Australia and became scratched multiple times by dingo. Despite this and the fact that koalas also scratched him, he fell so much in love with Australia that he decided to stay there forever.

Andrew was just chilling out in bed after he finished sinology, the Chinese studies. Meow.

Haru Honda moved to Texas because food there was so yummy and culture was very nice to him.

Rinka stayed young where field of sunflowers were endless. She was singing alone "sisters" in sunny field.

Bill went to heaven. place where life was different then on earth. There was pure peace relax and joy. And everyone was there white and happy and carefree. With endless laughter.

Jeb Thomas Pina. He became world famous cook. He doubted at first of he can do it, but finally went to gastronomy school. His meals were number one, totally unreplaceable.

Koori Uchuu went to space where she originally came from, she was happy in cosmic space. She added also that this is not big deal cause the universe has more then one quintillion places for everyone something can be found.

Miko went to prison, she couldn't never again go outside, she was seemed depressed and sad about it.

Then we saw Sachiko. She ended up in some muddy place. It was very wet and dark place, but she used her phone as S.O.S when needed.

Nagato Kome went back to God home. (The God was smiling looked like old men from Greeks mythology, like Zeus himself to be exact. This feeling was weirdest than

men can describe. But we were happy for her, maybe she went to some kind of Greece mythology dimension for eternity, who knows).

Rize ended up in bathroom, there was only darkness, despite she was adult. There was also blood in bathtub. It looked very scare scene but because of luck of time we couldn't dive deeper into this evidence.

Now it is the time to see Damien's future. He is there to my surprise still happy with me in wealthy home. Very carefree with me. We are enjoying the life. He was also happy

Thar Rizemi got job of her life. There was so many laughter n joy in our future and also kind of very holy light there was shining brightly. This was a good sign to us that we will be in good relationship and that we will have good future. (Rizemi's future looked exactly the same as his). At 23:45 we went back to Bill's home in 5 town. And we loved what we saw today. Ciao.

3<sup>rd</sup> of April

(Damien's and Rizemi's note)

We had nothing to lose we decided to exchange ideas with someone about what we saw. We decided to ask Rize Kome first because her vision was the darkest one. Then she smiled softly and decided to tell her dream to us. She just told us she is very big fan of horror and she is working on some movie casts. She wants to be an actor in the future. She assumed that this vision was probably nothing more than her future horror movie scene. Then she went to follow the lesion.

I never though she wanted to be an actor. Maybe this was really the answer to the vison we saw yesterday. Then after lesions we listened year 50' n 60' songs to relax such as Doris Day ones.
