Introduction

Welcome to the world of **United Survivors Heroically Intense**.

A frightful confrontation with how far warfare can rage against one individual living in plural. After all the slander, hatred, and threats on our life, we as Akin Artists, present to you our 11th poem collection. Being homeless at the moment, having a so-called 'rescue boat' to eventually be able to build our own boat and continue sailing, we already had our first Piano-Poem Recital at the Residential and can assure you that **WE WILL SURVIVE!** There was this wish to annihilate USHI, but oh, whoever got it into their heads will soon find out that those scandals will be out in the open. The worst we survived. Having to move out within two weeks means a certain luck to find movers, and it cost us a fortune, together with the devastating destruction they did on top of all the destruction towards USHI. Fling all that on a survivor, as long as we will survive, there is a way to avenge those monstrous deeds by keeping the world informed of how far hatred can be hurled towards someone vulnerable.

All we can do here, is wish you a wonderful journey, hoping you will enjoy it.

USHI
