5 hidden gems of CUBISM

251 KOVAŘOVIC VILLA

Libušina 3 Vyšehrad ② Inspired by the works of Braque and Picasso, its façade creates interesting shadows and animations. The villa itself, and the garden layout, the flower beds, the surrounding fence and even the steps are Cubist designs. The best view is from the front, on the corner of Vnislavova Street and Rašínovo nábřeží.

252 U NEKLANA

Přemyslova 11 Vyšehrad ② This humble corner apartment building resembles a ship anchored under the Vyšehrad ramparts. The original plans were much more ornate, but the conservative pre-war city council would not hear of it. The most striking elements are the hexagonal windows, through which you can peep inside.

253 CUBIST LAMP POST

Jungmannovo náměstí New Town ① Between numbers 13 and 14 stands the only cubist lamp post in the world. The original geometrical concrete pile of truncated cones, half-lamp half-bench, is now kept in the Prague City Gallery. An authentic copy now stands near the church entrance.

254 HOUSE OF THE BLACK MADONNA

Ovocný trh 19 Old Town ① +420 778 543 901 czkubismus.cz What happens if you turn a cubist painting into real 3D? That was the question Josef Gočár asked himself when he decided to apply this artistic principle in architecture and interior design. Visit the Czech Cubism exhibition and stop in the Grand Orient Café to feast on a cubist cream puff dessert.

255 ŽIŽKOV BETLEHEM CHAPEL

Prokopova 4 Žižkov ⑤ The golden banner above the altar claims that 'Truth Shall Prevail!'. For a Protestant chapel its interior is rather ornate, with walls covered with geometric patterns in warm tones. It is also surprising to find such a gem nestled in the greenery of an ordinary courtyard. Stop in on Monday evenings to attend choir rehearsals.

5 RIVER ISLANDS

to discover

426 STŘELECKÝ ISLAND

Old Town (1)

There is a small sandy beach on the northern tip, a unique spot where the river sings louder than the city. The spired building on the right bank is home to the museum of Bedřich Smetana, a composer who was inspired by the Vltava River for his famous symphonic poem.

427 **ŠTVANICE**

Holešovice @

A busy motorway cuts through this island, which was traditionally devoted to sports. Prague's oldest tennis club is here as well as a white water training facility and a bicross track. The slightly rundown villa next to it, which dates from 1824, has a bar where alternative theatre performances are organised.

428 CÍSAŘSKÝ ISLAND

Troja 10

Half of this island is occupied by water treatment plants, the other half belongs to horses. Situated between the Royal Game Reserve and Troja, it is a perfect place to ride out. Confident riders (only!) can book a horse with Mr Václav Koudela (+420 603 174 039) for 600 CZK an hour.

429 **LIBEŇSKÝ ISLAND** Libeň

From Libeňský Bridge head down the cycling trail for about 500 metres, leaving the sculptor's studio on your right and the community gardens on your left behind you. Find a quirky secret bar at the end of a narrow footpath where you can enjoy a beer (Yedno pheevo) or a refreshing raspberry soda (mullinofka).

430 SLOVANSKÝ ISLAND

New Town ②

Also called Žofín, after a neo-Renaissance palace. In 1841, the first Czech-made steam engine was demonstrated here. Today, a miniature kids' minitrain runs on the 53-metre-long railway near the playground. There is a fountain with drinking water nearby. Alcohol consumption is banned in the park.
