ADHD BIRD PULLING FIRE ALARM 43 TIMES

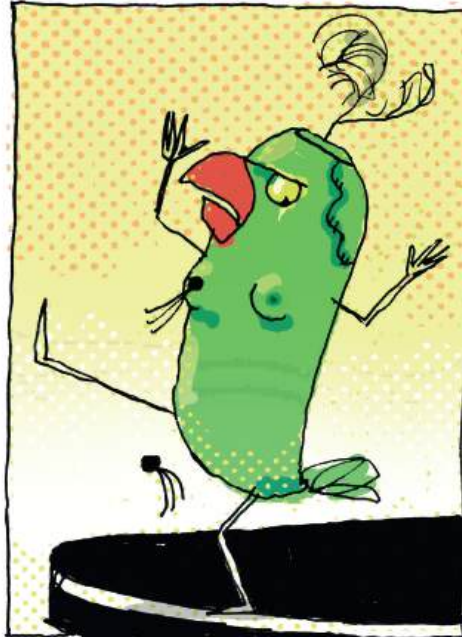

Police: parrot pulls apartment building fire alarm 43 times, blames behaviour on ADHD. Often birds with ADHD know what to do, but in the heat of the moment their sense of immediate need overwhelms their limited capacity for self-control. Fire alarm systems are expected to help protect birds, property, and assets. 'You can't tell if they're fully operational just by looking at them' our suspect reacts. He added that setting off the alarm relieved his tension. During an undercover sting, an investigator observed the ADHD parrot activate the pull station (the alarm sounded within a second) The police will verbally tell the parrot 'No' and place it back in its cage as some kind of punishment.

NIPPLE GATE AT THE FOLIES - BERGERE

Paris. Despite strict planning that takes place before hitting the stage, singer, dancer Rita Lin unintentionally exposed her left nipple, during a show in the legendary music hall, the Folies-Bergere. Rita suffered a wardrobe malfunction showing her left nipple just hanging out for everyone to see. The arousal that followed was extraordinary - with many parrots complaining, while others expressed their pleasure with the view. see page 13 →

THE GREAT KOIFISH HEIST

RINGNECK ROBBERS SUSPECTED

The police are looking for six parrots. They have stolen two hundred koifish from the pond at the Office Park. A van was caught on surveillance camera making three trips to the park.

The suspects, according to the police, is a group of six male ringneck parakeets. Their faces were not caught on CCTV because they wore masks and hoodies. Investigators say the suspects tried to change their appearances between robberies, by

wearing dark glasses or fake peckers. The police believe the same gang may be responsible for other incidents that featured similar circumstances. Two arrests were made in relation to this heist. The police even involved a psychic to track down these ringneck robbers, but to no avail. The gang made off with the koi worth over thousands of dollars. Continued on page 27 →

PERVERT CAUGHT

A small Cockatoo faces six months in jail for lewd behaviour after he was caught using x-ray glasses to see through parrot's feathers

ers in a foodstore. Various complaints have been filed by lady birds.

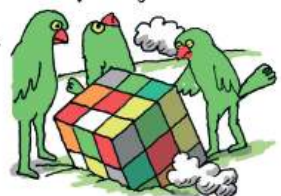

SAVED BY THE PAPER

MYSTERY

Last week, a giant Rubik's cube slammed into earth. Officials are still trying to figure out where it came from. One eyewitness told The Daily Parrot how they had seen the object come

down to earth. Nobody was injured.

FORECAST

After a spectacular Saturday our weather will take a dreary turn Sunday. Even though we are expecting sunny intervals and a moderate breeze.

BEYOND ROSETTA!

ANCIENT EGYPTIANS KNEW IT ALL ALONG

The Rosetta stone is our key to understanding the meaning of hieroglyphs. Glyphs should be read, not as symbols of ideas or objects, but as a phonetic script. New rock inscriptions have been discovered on a parrot historical science expedition and revealed ancient predictions of the future. This archeological discovery sheds new light on the Egypt civilization.

The expedition opened a 3000-year-old tomb and uncovered incredible art. The walls of the recently opened tomb of king Methbeeper IV (921-936 B.C.) were decorated with hieroglyphic images, predicting numerous ambitious ideas for the millennia ahead! Such as: electric light, the computer, the safety pin, the trumpet, the scooter along with hundreds of others.

Two proud members of the scientific expedition next to king Methbeeper IV sarcophagus. *Continued on page 22* →

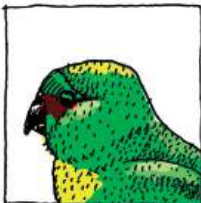

STEVE IRWIN

STEPHEN ROBERT IRWIN

(22 februari 1962 - 4 september 2006), nicknamed "The Crocodile Hunter", was an Australian zookeeper, conservationist and television personality. His quote on parrots: "Yeah, for some reason parrots have to bite me. That's their job. I don't know why that is. They've nearly torn my nose off. I've had some really bad parrot bites"

PARROT OF THE DAY

GREAT NEWS! The Rock Parrot (*Neophema petrophila*) is another of the coastal *Neophema* parrots of southern Australia, related to the #OBP, blue-winged parrot and elegant parrot. Another reason to visit Rottneest (not just for a quokka selfie!)

PARROT TURNS OUT TO BE VULTURE

A man who adopted an adorable young parrot, that turned out to be difficult to housetrain. The chick refused to stay put. Its owner bought a special cage but the chick chewed through it. In the end, the young parrot turned out to be a vulture. A wildlife specialist told the Daily Parrot "if the animal continues to progress, we will be in contact with other local wildlife rehabilitators to find a facility that has other similarly aged vultures."

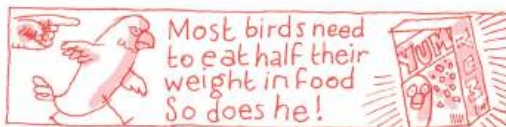

PARROT RUNS AMOK

Some parrots are attracted to overripe fruits and alcohol-rich nectar. Last week, the police received calls about a seemingly drunk parrot, disturbing the peace outside a candy store. It frightened children into giving him cash. The parrot shouted at a young girl that wanted to buy sweets. The bird, the police said, was warned "multiple times to control its behaviour and stop shouting and cursing". Once arrested, the parrot became combative and began to resist the officer. It broke the officer's body camera and attempted to bite another officer. Then it threw up on the sidewalk, looked up at the policeman coming over to help, and sweetly apologized.

KNITABILITY

'I do feel like I've wasted a lot of time by not knitting,' says Gumby who, in his sparetime, is religiously devoted to knitting since he overcame his fear of needles. 'I couldn't stop picking my skin.' In a moment of out-of-the-box thinking he Googled 'getting over knitting phobia' and found 'www.knitforhealth.org'. 'So I called them. They said they could help me.' In a few weeks, the problem was solved.

'When you come home tired after working 9-5, what do you do? You knit,' Gumby says. Easily it becomes a major addiction. 'Sometimes I think: should I quit my job and follow my passion? Unfortunately I'm not getting paid for knitting.'

Chinese SAD ZODIAK

The sunny side of life has a shadow realm this month, delete your search history, the stars have decided that you are going to get hit by a car and the more you try to escape from it, the more likely it will happen. You often feel that 'nobody loves you' and you know what? Maybe you're right.

YEAR OF THE ROOSTER

The years of the rooster include 1921, 1933, 1945, 1957, 1969, 1981, 1993, 2005, 2017, 2029.... in terms of yin and yang (阴 阳 - yīn yáng), the rooster is yin. Roosters are complex parrots that seem strong but need validation from loved ones.

COUNTLESS SHAMELESS PARROTS IN TOPLESS BAR

Today, no parrot wants to live a boring life. There is a need to check out what things are being done at popular strip clubs. Club Piri Piri is one of downtown's most exclusive venues. The place is like a fortress. Cellphones can't get a signal. Apart from topless barparrots that make you go weak in the knees, the place offers drug sales, gang activity, fights, shootings, and bird prostitution. Apparently it's a really cool place to hang out!

- Sad Facts: Rooster years are believed to be the most unlucky for people born in the previous year of the rooster.
- Unlucky numbers: 1, 3, 9. Unlucky colors: white, green. Unlucky directions: east, north.
- The Rooster can become cocky, bossy, blunt.

BLACK BEVERAGE

SPOILED KIDS

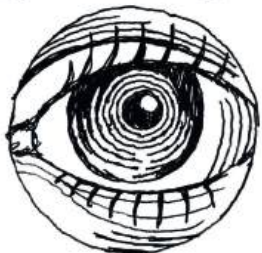

Because the majority of parents are head over heels in love with their children, they don't want to get firm. This is because they don't want to embarrass their kids. The spoiled child syndrome is characterized by excessive self-centered and immature behavior. It can happen that the young parrot loses its zest to take action. Case studies provided detailed descriptions of these spoiled brats. Plato (ca. 427 BC - 347 BC) has already said "the children now love luxury; they have bad manners, contempt for authority!" Research showed that 76% of 9-19 year olds act like the world owes him/her something. It's manipulation at its finest. Oscar Wilde: "Selfishness is not living as one wishes to live, it is asking others to live as one wishes to live".

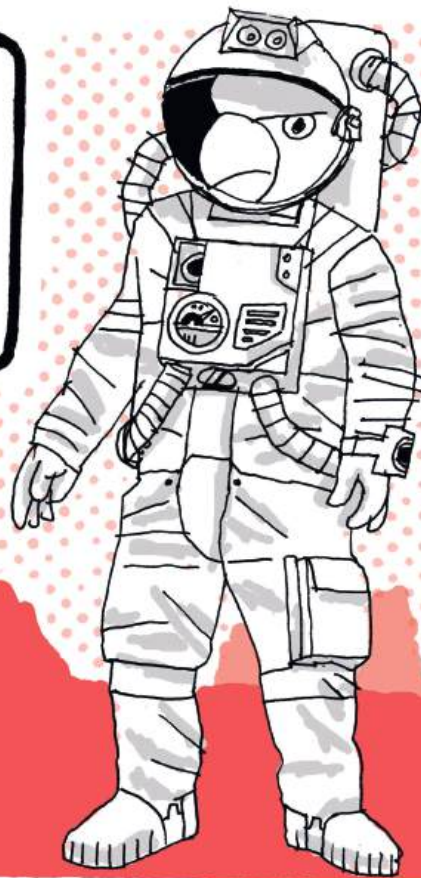

Ways to un-spoil your kids are: old fashioned mental or physical exercise. Discipline and punishment. The art of ass-kicking. Cold showers, every day, get up at 5 am, doing push-ups. Tell them: 'a winner never quits, and a quitter never wins'.

SCIENCE PAGES

BIRDS

EYE TEST

SENDING PARROTS TO MARS

It's official, parrots are going to Mars. It won't be easy, to turn the red planet green. But they should go there because of what they can learn from the planet.

Of course, it's extremely difficult to foresee how birded missions to Mars, that cost hundred of billions of euro's each, could benefit birdkind. We tend to think about the age of exploration as the time between the 15th and 17th century, when European birds flew around the world in search of new land and trees. But in reality many birds, including storks and blackbirds, sought new land to colonize. Establishing a permanent colony of parrots on Mars is not an option. It's a necessity.

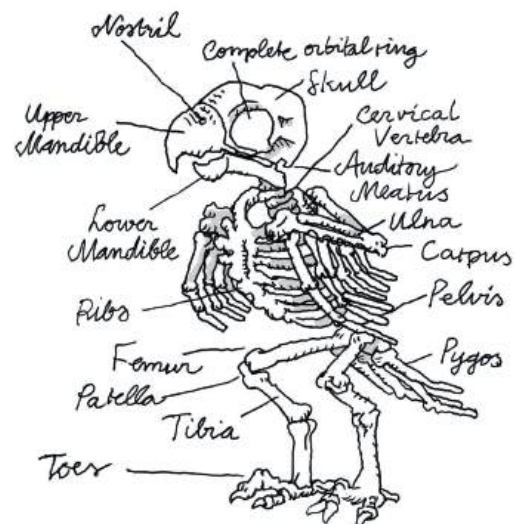

Linda, spokesperson of the Union of Concerned Parrots

FEAR OF SCIENCE

The Union of Concerned Parrots, a nonprofit alliance of more than 100 000 birds, recently released frightening reports on the integrity of science.

A negative term applied towards academic elitism, the idea of science as an ivory tower. According to the Union, one must be able to critically scrutinize and evaluate the information you are about to use in your pieces of work. A Union spokesperson said the university would continue co-operating with any scientists and pointed to their past statements.

Skeleton System

SCRABBLE PLAYING AFRICAN GREY

This parrot is not just a gifted talker, it is also known for its intelligence. If you teach Scrabble to your parrot, you are teaching it a game which builds vocabulary and word skills. This is my bird: Newton. If you ask him 'what do you fancy sex, sleep or Scrabble?' Scrabble is the answer. It has a way with words, Newton never fails to impress me. The board game has become a big part of our life!
