Man is not fully conditioned and determined but rather determines himself whether he gives in to conditions or stands up to them.

In other words, man is ultimately self-determining.

– Viktor E. Frankl, *Man's Search for Meaning*

TABLE OF CONTENTS

Preface	xiv
Abbreviations	xvii
1 Introduction	1
1.1 Reducing Risk or Increasing Well-being?	1
1.2 A Risk-focused Approach: The Risk Need Responsivity Model	3
1.3 A Strengths-based Approach: The Good Lives Model of Offender Rehabilitation	6
1.4 Aim	9
1.5 Overview	10
2 The Risk Need Responsivity Model vs. The Good Lives Model	13
Similarities and Differences	
2.1 Similarities and Differences Between the Two Rehabilitation Models	13
2.1.1 Offender Rehabilitation: What Works According to Whom?	13
2.1.2 Goods to Pursue and/or Risks to Avoid?	15
2.1.3 Explaining Criminal Conduct: Two Sides of the Same Coin?	20
2.2 Bridging the Gap	22
2.2.1 The Potential Bridge Between Risk-focused and Welfare-focused Rehabilitation Approaches	22
2.2.2 The Potential Additional Value of the GLM: Treatment Motivation and Engagement	25
2.3 Moving Forward: To an Integrative Approach in (Juvenile) Offender Rehabilitation	28
3 Theoretical and Empirical Background of GLM's First Etiological Assumption	31
Associations Between Primary Goods and Well-being	
3.1 What is a Good Life?	31
3.1.1 Well-being Approaches	32
3.1.2 The Good Life According to the GLM	34

TABLE OF CONTENTS

3.1.3	Goal-directed Human Nature	36
3.2	The Development of the GLM Primary Goods	37
3.3	Theories Underlying the GLM Primary Goods	39
3.3.1	Self-Determination Theory (SDT)	39
3.3.2	Psychological Theories	40
3.3.3	Philosophical Theories	41
3.4	Good Lives: Social, Cultural and Personal Differences	43
3.4.1	Secondary Goods	45
3.5	Empirical Evidence Supporting the GLM's Primary Goods	46
3.5.1	Life	47
3.5.2	Knowledge	48
3.5.3	Excellence in Work	48
3.5.4	Excellence in Play	49
3.5.5	Excellence in Agency	49
3.5.6	Inner Peace	50
3.5.7	Relatedness	51
3.5.8	Community	51
3.5.9	Spirituality	52
3.5.10	Creativity	52
3.5.11	Pleasure	52
3.6	Possible Problems	53
3.6.1	Lack of Capacities and Scope	53
3.6.2	Inappropriate Means and Lack of Coherence	55
3.7	Conclusion	57
4	Different Phase, Different Needs?	59
	Associations Between Primary Goods and Overall Subjective Well-Being in Adolescents: A Systematic Multi-Level Meta-analysis	
4.1	Method	60
4.1.1	Included and Excluded Well-being Measures	60
4.1.2	Included and Excluded Primary Goods Proxy-measures	61
4.1.3	Search Strategy and Selection	61
4.1.4	Data-analysis	65
4.2	Results	67
4.2.1	Primary Goods in Relation to Adolescents' Well-being	68
4.2.2	Primary Goods Under-represented in the Research Literature	70
4.3	Discussion	72

4.3.1	Psychological Needs: Relatedness, Competence and Autonomy	72
4.3.2	Emotional Needs	74
4.3.3	Basic Needs	75
4.3.4	Spiritual Needs	76
4.3.5	Curiosity and Expressive Needs	77
4.3.6	Pleasure and Happiness: A Paradox?	77
4.4	Limitations and Remaining Questions	78
4.5	Conclusion	81
5	Theoretical and Empirical Background of GLM's Second Etiological Assumption	83
	Associations Between Primary Goods, Well-Being, and Juvenile Delinquency	
5.1	Pathways to Delinquency According to the GLM	83
5.2	Need and Goal Frustration	84
5.2.1	Strain Theory	85
5.2.2	Self-Determination Theory	87
5.3	Combining Primary Goods and Risk Factors to Explain Juvenile Delinquency	89
5.4	The Antisocial and Criminal Pursuit of Primary Goods	91
5.4.1	Life	92
5.4.2	Knowledge	93
5.4.3	Excellence in Work	94
5.4.4	Excellence in Play	95
5.4.5	Excellence in Agency	96
5.4.6	Inner Peace	98
5.4.7	Relatedness	99
5.4.8	Community	101
5.4.9	Spirituality	102
5.4.10	Creativity	103
5.4.11	Pleasure	104
5.5	Adolescent Well-being and Delinquency	106
5.6	Conclusion	107
6	Examining Direct and Indirect Pathways to Juvenile Delinquency in the General Population	109
	Testing the Associations Between Primary Goods, Well-Being, and Delinquency in Adolescents from the General Population	
6.1	Method	111

TABLE OF CONTENTS

6.1.1	Sampling Procedure	111
6.1.2	Measures	112
6.1.3	Statistical Analyses	117
6.2	Results	118
6.2.1	Sample Characteristics	118
6.2.2	Descriptive Statistics	119
6.2.3	Relationship Between Well-Being and Delinquency	122
6.2.4	Direct and Indirect Pathways Between Primary goods, Well-Being, and Delinquency	124
6.3	Discussion	130
6.3.1	The Relationship Between Well-being and Adolescent Delinquency	131
6.3.2	The Role of Primary Goods in Adolescents' Well-Being and Delinquency	131
6.3.3	Relatedness: Family, Peers and Community	132
6.3.4	Competence: Excellence in Work and Life	134
6.3.5	Autonomy: Excellence in Agency	134
6.3.6	Inner Peace	135
6.3.7	Spirituality	136
6.3.8	Less Important Goods	137
6.4	Conclusion	138
6.5	Limitations and Remaining Questions	138
7	Examining Direct and Indirect Pathways to Juvenile Delinquency in Detained Adolescents	141
	Testing the Associations Between Primary Goods, Well-Being, Mental Health Problems, Criminogenic Risk and Delinquency in Detained Adolescent Boys	
7.1	Method	143
7.1.1	Setting and Sampling Procedure	143
7.1.2	Study Procedure	145
7.1.3	Measures	146
7.1.4	Statistical Analyses	151
7.1.5	Power Analysis	152
7.2	Results	153
7.2.1	Sample Characteristics	153
7.2.2	Descriptive Statistics	154
7.2.3	Relationship Between Well-Being and Delinquency	158

7.2.4	Direct and Indirect Pathways Between Primary Goods, Well-Being and Delinquency	158
7.2.5	Examining the Role of Obstacles in Explaining Well-Being and Delinquency	162
7.3	Discussion	167
7.3.1	The Relationship Between Well-Being and Adolescent Delinquency	167
7.3.2	The Role of Primary Goods in Detained Adolescents' Well-Being and Delinquency	168
7.3.3	Life: Basic Physical Needs	168
7.3.4	Relatedness: Family and (Fun with) Friends	170
7.3.5	Inner Peace: Mental Health	171
7.3.6	Obstacles: Criminogenic Risk Factors and Mental Health Problems	172
7.3.7	Less Important Goods(?)	172
7.4	Conclusion	173
7.5	Limitations and Remaining Questions	173
8	Examining the Self-Perceived Pathways to Juvenile Delinquency in Detained Adolescents	175
	Self-Perceived Views on Primary Goods, Well-Being and Delinquency in Detained Adolescent Boys	
8.1	Method	176
8.1.1	Study Procedure	176
8.1.2	Qualitative Analyses	177
8.2	Results	178
8.2.1	Sample Description	178
8.2.2	The Importance of Primary Goods According to Detained Adolescents	179
8.2.3	Secondary Goods in the Pursuit of Primary Goods	195
8.2.4	Delinquency and the Role of (Problems in) Primary Goods Achievement Explained by Adolescents	199
8.3	Discussion	209
8.3.1	The Role of Primary Goods in Adolescent Well-Being	209
8.3.2	Problems in Primary Goods Achievement: Criminogenic Risk Factors as Obstacles	212
8.3.3	Problems in Primary Goods Achievement: Lack of Scope and Coherence	213

TABLE OF CONTENTS

8.3.4	Problems in Primary Goods Achievement: Inappropriate Means	214
8.4	Conclusion	216
8.5	Limitations and Remaining Questions	217
9	Theoretical and Empirical Background of the Pathways to Sustainable Desistance	219
	Associations Between Primary Goods, Well-Being, Treatment Motivation and Recidivism	
9.1	Achieving Sustainable Desistance	220
9.1.1	Desistance Theories	221
9.1.2	Prosocial Identity Development	223
9.2	The Importance of Treatment Motivation and Engagement for Successful Rehabilitation	223
9.3	Enhancing Treatment Motivation and Engagement	225
9.3.1	Multifactor Offender Readiness Model	225
9.3.2	Stages of Change Model	227
9.3.3	Motivational Interviewing	228
9.4	Effective Treatment Goals for (Juvenile) Offender Rehabilitation	229
9.4.1	Well-Being and Quality of Life	229
9.4.2	Psychological Needs: Self-Determination Theory	231
9.4.3	Relatedness: Therapeutic Alliance	232
9.4.4	Competence: Self-Efficacy and Internal Locus of Control	233
9.4.5	Autonomy: Pursuing Personally Relevant Goals	234
9.4.6	Primary Goods Attainment in Adult Offenders	235
9.4.7	Primary Goods Attainment in Young Offenders	237
9.5	Conclusion	238
10	Examining the Pathways to Desistance in Detained Adolescents	239
	Testing the Associations between Primary Goods, Well-Being, Mental Health Problems, Treatment Motivation and Recidivism Risk during Detention	
10.1	Method	241
10.1.1	Setting and Sampling Procedure	241
10.1.2	Study Procedure	243
10.1.3	Measures	244
10.1.4	Statistical Analyses	247
10.2	Results	249
10.2.1	Sample Characteristics	249

10.2.2	Descriptive Statistics	250
10.2.3	Cross-Sectional Associations at T2 during Detention	255
10.2.4	Longitudinal Relationships between T1 and T2	258
10.3	Discussion	261
10.3.1	The Role of Primary Goods, Well-Being and Treatment Motivation in Recidivism Risk Reduction	262
10.3.2	The Role of Mental Health Problems during Detention	263
10.4	Conclusion	264
10.5	Limitations and Remaining Questions	265
11	General Discussion: The GLM Applied to Adolescent Offenders	269
	Conclusions, Recommendations and Practical Implications	
11.1	The GLM' First Etiological Assumption: Primary Goods and Adolescents' Well-Being	269
11.2	The GLM's Second Etiological Assumption: Explaining Adolescent Delinquency	272
11.3	The GLM's Practical Assumptions: Effects on Treatment Motiva- tion and Recidivism (Risk)	276
11.4	Study Limitations and Research Recommendations	277
11.5	Practical Recommendations	280
11.5.1	Complying with the Risk Need Responsivity Principles	280
11.5.2	Forensic Case Formulation	281
11.5.3	Primary Goods Assessment	282
11.5.4	Good Lives Plan	284
11.5.5	Specific Recommendations for Juvenile Offenders	285
11.6	Important Intervention Goals for Adolescent Offenders	288
11.6.1	Family and Peer Relationships	288
11.6.2	School and Work	289
11.6.3	Leisure Activities and Having Fun	290
11.6.4	Substance (Ab)use	291
11.6.5	Mental Health and Overall Well-Being	291
11.6.6	Prosocial Identity and Agency	292
11.7	Effective Individualized Interventions	293
11.7.1	Residential Interventions as a Last Resort	294
11.7.2	Community-based GLM-Compatible Interventions	295
11.7.3	General Effective Components	296
11.8	Conclusion	297
	References	299
