Introduction

Thank you for getting a copy of Limitless Memories - Pics or it didn't happen. I'm so excited and I hope you are too!

I have to admit that I'm slightly obsessed with making and capturing memories. I love to try new things, go on an adventure or enjoy the sunset. However, sometimes I needed a little push to actually go out there and do things. That's when the idea for this book was born. Not just a bucket list, but a combination of fun activities, pictures and little reminders to help you keep the memories alive. You can either choose to follow an activity precisely or give it your own twist, whatever works best for you!

Please make sure everything is done safely and with respect for the environment. At the end of the book, there is some free space for you to create your own Pics or it didn't happen activities. I would love to hear what you came up with!

I wish you lots of fun and many beautiful moments.

Let's create some memories!
