

Traveling around the World

Our Earth has many **beautiful places**. In this book, you'll journey to every continent. You'll search for the most impressive buildings, the most colorful parties, and the most beautiful pieces of nature. Along the way, you'll face mysterious statues, rare animals, and the remains of ancient temples.

On the ice plains of Antarctica, penguin colonies waddle right in front of your feet. On the hot plains of North America, you'll find cathedral-shaped mountain ranges. In Africa, you'll meet a man-lion and end up in the crypt of a mummy. Every continent is unique and will leave you **speechless**. Are you ready? Then our journey around the world can begin!

*I live in
North America*

Me, too!

Me, too!
