

The secret cave

High up on a mountain above the forest, we discover a secret cave. Between the rocks, gems glisten in the light of our torches. And half-hidden in the sand we find . . . a massive *dinosaur skull*! What else will we find?

What color are the gems in the bushes?
Can you find six orange gems?
How many flames do you count?

- the flashlight 
- the backpack 
- the magnifying glass 
- a fossil 
- the candle 
- a ladder 
- the skull 
- these gemstones 
- the spider 
- the pickax 
- a blue flower 
- the key 
- the rope 
- a bone 
- a torch 

Dinosaurs poop, too!

Oh, no! What's that on the road?
Our jeep is stuck in a gigantic *dinosaur poop*!
Pee-yew! Good thing we have shovels,
because this is going to be one messy job.
Can you help us find what else is stuck in the yuck?

Where's the secret cave?
Can you pretend you smell dinosaur poop?
What should we all do after digging here?

- a dump truck 
- a wooden block 
- a lollipop 
- a watermelon 
- the magnifying glass 
- a soccer ball 
- a shovel 
- the butterfly 
- the toilet paper 
- the purple poop 
- a toilet brush 
- the air freshener 
- a bone 
- the shoe 
- the spoon and fork
